

## Update 8.6.20

Hello 1M.

Hope you are all happy and I hope you got a chance to do some fun things over the half term holiday. When we first went into 'lockdown' I asked you all to learn a new skill and I said I was going to do some more cooking. Well here is what I have been making; scones, chicken mushroom and leek pie, flap jacks, banana bread, lamb koftas, toad in the hole and lemon drizzle cake. Some things worked out really well and others a little over done 😊

Keep learning new skills. I have now started to improve my gardening skills.

So I have got a new learning pack ready for you this week (10.6.20) and here is a new challenge.

### D&T Challenge

I would like you all to start saving empty boxes, egg boxes, plastic bottles, yoghurt tubs, toilet roll tubs etc.. You will also need celotape or glue, crayons or paint. You will need to save these things for June 22<sup>nd</sup>. In your new home learning packs you will have 2 sheets to design, colour, investigate and label a playground. Then I would like you to make your own playground.

Remember to keep using Mathletics and BBC Bitesize as well as Espresso and Numbots. I will be adding more activities and websites to the class 'homework' page so keep checking every week. Remember to stay active and keeping listening to your parents.

Stay safe 😊
