Don't forget this learning can be accessed at home on Class Dojo and Sharepoint.

Friday 2nd October

D&T- LO: To design an appealing product

We are beginning to design a product based on Greek Food. You have tasted some ingredients and examples of Greek food. If you remember back to last weeks lesson we were talking about what would make a good product and created a success criteria for it.

The next step is to design your own product to make. You can choose from one of these 4 dishes.

Greek salad

Pitta Bread

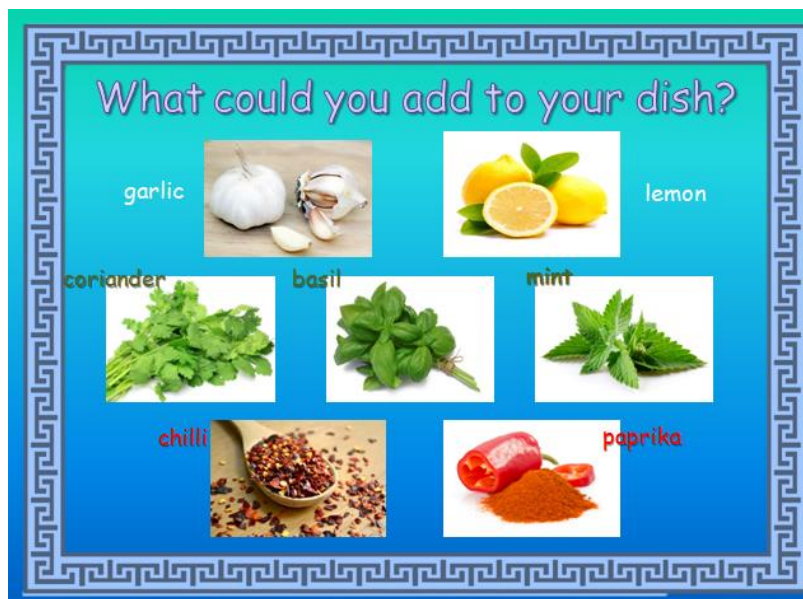

Hummus

Tzatziki

Google some simple recipes for the product of your choice. What could you do to improve them? Think back to the tasting session.

Using the information on the next slide, please could you complete the design sheet I have put at the end of this sheet.

Name of your product:

What will your product look like?

How will your product be different from the existing products you tested? _____

What ingredients will you need?

_____	_____
_____	_____
_____	_____
_____	_____
_____	_____
