

## **Home Learning in Reception Week beginning 5<sup>th</sup> October**

Hello Reception,

Here are the things we have planned to learn in school for this week. If you are at home, please work on these activities.

### **Literacy**

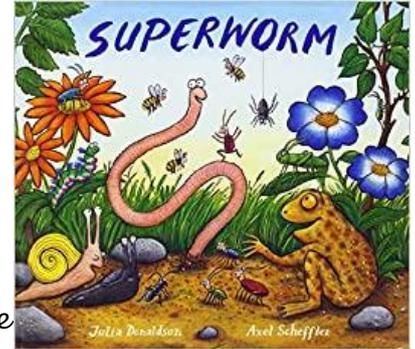

Listen to the story of Superworm on You Tube

[https://www.youtube.com/watch?v=SAu\\_LsBrQTY](https://www.youtube.com/watch?v=SAu_LsBrQTY)

Can you invent your own insect hero? Decide on it's superhero name by using the same initial sound i.e. amazing ant, great grasshopper, brilliant beetle etc.

Draw your Superhero insect character. Will it be wearing a cape or a special outfit?

Talk about why your superhero is special. Is it strong, helpful, kind like Superworm?

### **For phonics**

Watch the videos on Espresso for i, n, m, d (You will need the log in details given at the beginning of term)

Try to find things around your house that begin with these sounds.

Write the sounds, hold your pencil in the tripod grip. Form your letters correctly as above starting at the top.

### **Mathematics**

Look at number books.

Using toys or other safe objects around your house such as tricolour or different shaped pasta, ask your child to sort them to different criteria such as colour or shape. Can your child decide on how to sort them?

Ask your child to help with sorting jobs around the house such as pairing socks, putting away cutlery, tidying toys away.

Make a pattern with some objects they have sorted one from each set for example tube pasta, twisted pasta, tube pasta, twisted pasta or blue car, red car, blue car, red car.

### **Topic work**

This week we are looking at people who help us in the Health service. We will be talking about how doctors and nurses, dentists and opticians help people and how to keep ourselves healthy.

On Espresso go to Foundation - Understanding the world - People who help us: Health services and share the videos, book and activities.

At home draw some healthy foods you eat and this week try some new healthy foods. What do they look, smell, feel and taste like?

Make a fruit salad. Allow your child to chop the fruit using a table knife for example a piece of banana and a piece of apple or pear, peel a tangerine to add and squirt in some orange or other juice, stir and eat. Yummy!

RE - Talk about special friends and why they are special.
