

Home school 25th September 2020 Due Wednesday 30th September

School

This week we have been finding out about Emergency Services and how to keep safe on the roads. In Literacy we have been listening to 'Superworm' and talking about how he helps his friends. In Maths we have been recognising numerals to 4 and making sure we understand that if we move objects the amount stays the same. We have also been comparing tall and short items.

Next week we are continuing to look at Emergency services, in particular, Fire Fighters. We are finding out about the number 5 in Maths and will do more work on our 'Superworm' story.

Home

Please can your child find out about a job someone in their family does and draw a picture of them. Encourage them to draw a head, with a face, and a body with arms and legs. Thank you.

Reminders

We would like to say a **huge thank you** to all the parents who have written their child's name in coats, bags, water bottles, jumpers, cardigans and clothes. It helps us to quickly identify the items belonging to your child and solve problems when two children have the same item. When things are unnamed it can cause a lot of time to find out who they belong to and at the end of each year we have a bag of unclaimed unnamed items. We would like to urge those who have not named things yet to do so quickly to prevent things getting lost.

Also, please can you return your signed ICT agreement form if you have not already done so. Thank you.
