

Home school 8th October 2020 Due Wednesday 14th October 2020

School

This week we have been finding out more about the health service and thinking about keeping ourselves healthy by keeping clean, eating healthy food and exercising. In Mathematics we have been sorting objects into 2 sets and saying which has more and fewer and making a 2-step pattern with shapes. Next week we will be looking at Autumn and observing changes in our environment.

Home

Please ask your child to make a repeating 2-step pattern using colours.

Thank you,
