

## Home Learning in Reception Week beginning 9th November

Hello Reception,

Here are the things we have planned to learn in school for this week. If you are isolating at home, please work on these activities. Please bring your work into school when you have finished your isolation for us to see. Thank you.

### **Literacy**

This week we are reading the story Laura's Star. Please read or watch the story

<https://www.youtube.com/watch?v=6OT5VPMbQxs> Once you have read or watched the story can you:

- write a list of all the things that you can see in the pictures e.g. moon, stars etc.
- make a lost poster for the star
- Draw and label a picture to show how you will send the star back to the sky

### **For phonics**

Recap all the sounds learnt so far from s to ss. (see sound mat above) Say the sound for each one and name something that begins with that sound. Find some items in your home that have 3 sounds in them such as a mug, cup, peg, hat, map. Sound out an object for your child to find i.e. the c-u-p. Your child points to the correct item. Ask them to be 'teacher' and use robot talk to sound out an object for you to find.

Play Buried treasure. Choose a sound up to practise reading the words on the coins and put them in the treasure if they are real and bin if they are made up.

<https://legacy.phonicsplay.co.uk/BuriedTreasure2.html>

### **Mathematics**

Look at number books.

Sing number rhymes. [https://www.youtube.com/watch?v=V\\_lgJgBbqWE](https://www.youtube.com/watch?v=V_lgJgBbqWE)

This week we are learning to find 1 fewer than a given number. Watch '5 Little Men in a Flying Saucer' on You Tube. Talk about how many people there are left each time one leaves.

<https://www.youtube.com/watch?v=mGw5yTOPTSQ>

Draw a 5 frame

--	--	--	--	--

Put five objects in it. Ask your child how many are there? Take one away. How many are there now? Take one away each time and say how many.

Next put 3 object in. How many are there? Ask your child to predict how many there will be if there is one fewer. Repeat this with different numbers.

### **Topic work**

This week is all about Day and Night. Talk about the things that we do in the day and things that we do at night. Ask your child to draw a picture to show the day and to draw a picture to show the night. Write a list of all the things that you do in the day and all the things that you do in the night.
