

Home school 11th June Due Wednesday 16th June

School

We hope you had a lovely holiday. This week we started our new topic of 'What happens in Summer?'. We have been on a Summer walk and have talked about things we do in the summer. In Literacy we have read the story 'Christopher's Caterpillars' and talked about what caterpillars change into and looked for them outside. In Maths we have been finding pairs to make 5.

Next week we will look more closely at minibeast lifecycles and see what we can find outside.

Home

Please ask your child to go on a minibeast hunt. Can you find 3 minibeasts, draw a picture and label them? Write a sentence to describe one of the minibeasts for example 'It is green.'

Please can we remind you as the weather is getting warmer your children are asking for water more and if they have a water bottle in school they can get it themselves when they need it rather than having to wait until an adult is available to get them a drink. Please only send water and make sure the bottle has their name on it. We are also asking your child to bring a sunhat for outside play and sunscreen can be applied before school. Children are taking their jumpers off a lot more so please check their name hasn't been washed off. We have a big box of unnamed, unclaimed jumpers and cardigans.

Thank you.

Have a lovely weekend.
