

What can we grow?

This half term we have
been looking at growing.

We have been looking at the story 'Oliver's Vegetables'. We got a surprise from Oliver and we looked at different seeds and bulbs.

We have been talking
about all of the
foods we can grow.
Can you think of any?

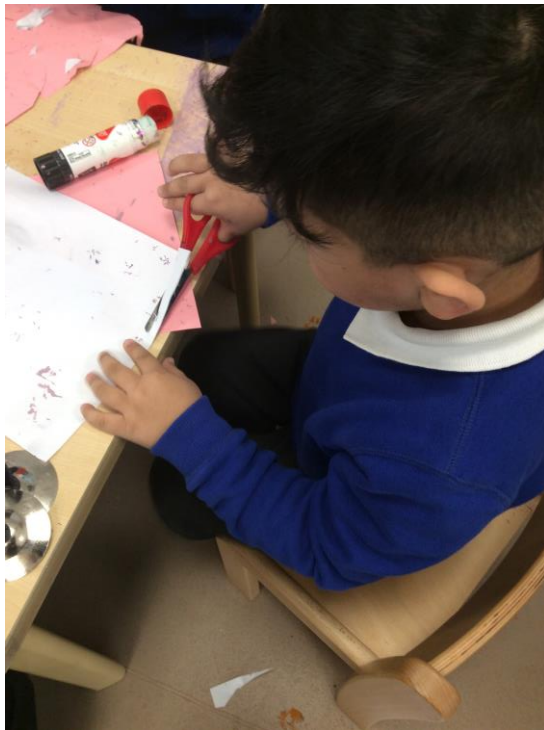

Lusho

We have been busy planting in our
Outdoor Area.

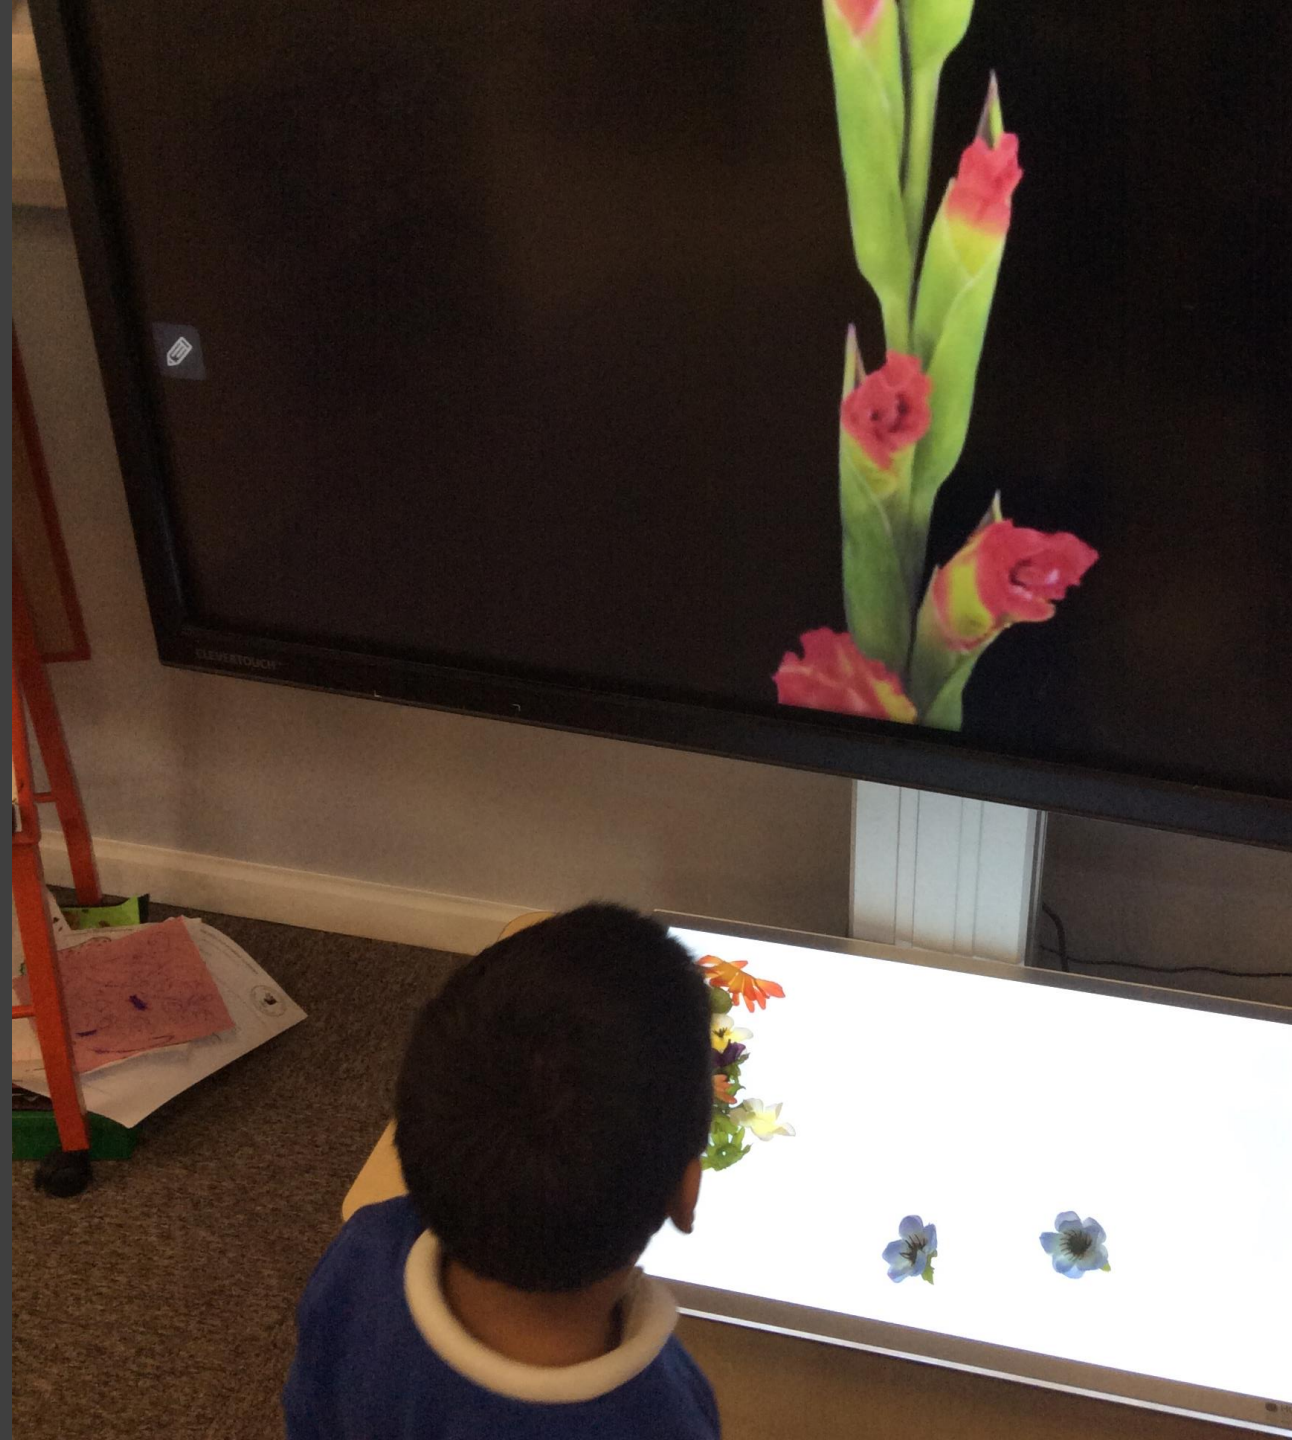

We created flowers and vegetables using different collage materials.

We watched carefully as our flowers and vegetables started to grow. We talked about the parts of a plant and what plants need to grow.

We explored petals and flowers on the lightbox and watched videos of plants growing.

We also explored length and practiced ordering objects by size. We are also using size language to describe, such as longer and shorter.
